## KRS FLAT FEE PACKAGES

*Did you know* that there are hundreds of laws regulating your business activities which require up-to-the-minute compliance from your company in the midst of continuous legislative changes, in order to minimise risk and maximise the cost-effective and competitive operation of your business?

Sometimes certain legislative changes may not affect your company at all; some may exert only minor influence, while **some others again may radically affect your business**, its operational framework and profitability.

But is it really a one-man job to live up to professional challenges, develop the company's core business, explore new business opportunities and partnerships, and at the same time keep pace with a rather complex and constantly changing legal environment and taxation regulation in order to evaluate and ensure the company's compliance on a regular basis? We believe it isn't.

**This is why your company needs a reliable partner, a consultant who offers decades of professional experience acquired in several fields of law and taxation; has up-to-the-minute information on all the legislative changes your business may face, identifies the right legal solutions to these changes, and has a high degree of expertise in judicial and business practices.**

Based on our law firm's 23 years' experience in assisting our clients and reflecting on their needs we have standardised the below flat fee service packages, **which may provide main competitive advantages to your company:**

- predictable spending on legal services
- in-depth knowledge of sector-specific regulatory changes and taxation law amendments
- pro-active risk detection and immediate solutions to any legal risks that may impact your business operations, ensured by continuous communication
- availability of routine, technical legal services with a price discount or free of charge
- availability of legal services targeting risk mitigation, operational efficiency, or strategic due diligence with a price discount

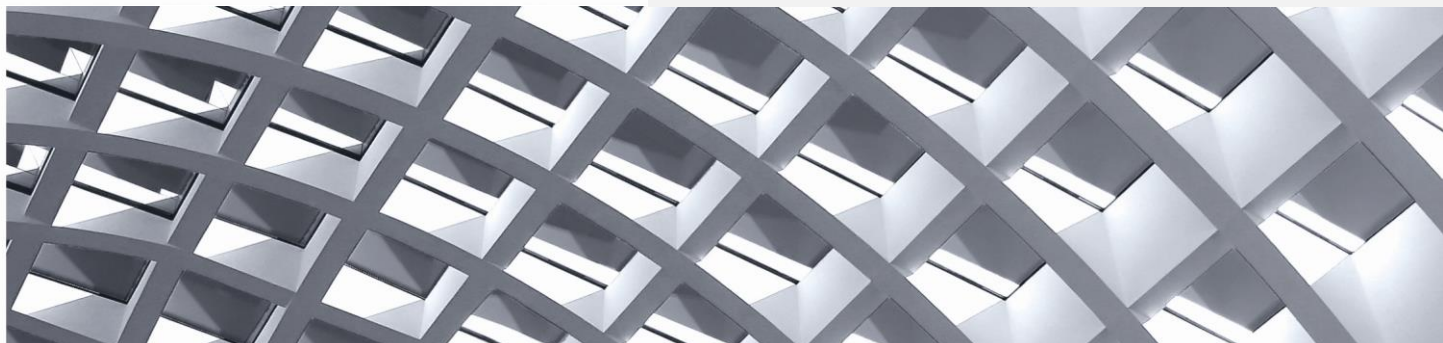

Our flat fee packages are available upon the conclusion of an agreement for a definite term of min. 1 year.

For more information we invite you to check out our flat fee price list below and encourage you to contact us with any questions on the phone, in person, or e-mail.
