

We participated in the state purchase of Andr  Kert sz's pictures as a legal advisor

Our office has been part of the process during which Andr  Kert sz's photo collection of 1,163 pieces became a key element of our Hungarian cultural heritage.

KRS participated as a legal advisor in the process, in which the Hungarian state purchased the photo collection from Stephen M. Bulger Photography Gallery Inc. in Toronto for \$ 6.1 million (HUF 1 billion 836 million). The trustee of the collection is the Hungarian National Museum.

Some of the photos have already been presented in exhibitions, but there are many items that have not been seen yet by the general public. An exhibition of these pictures is expected to open in 2022 at the Hungarian National Museum.
